

TRUTH IN EDUCATION

What Does Critical Race Theory Teach?

Eliminates class rankings

There is no absolute truth - facts do not matter

Radicalized school climate and curriculum

Whites are inherently racist and oppressive

Limits the number of AP classes to be applied to GPA

Behavior outcomes over content

Whites are responsible for all historical actions of other whites

Exchanges critical thinking for empathy

Microaggressions = Victimhood

Algorithms can be manipulated to achieve math equity

Black/brown races are told they are not smart enough to succeed unless another race is held back

Eliminates competition - Loss of motivation

No individualism - Conformity of thought

Replaces the American Dream with Socialism

STOP THE HATE!

Celebrate diversity and foster unity instead...
