

How much trauma does a child need to endure for a parent to be awakened?

Social Justice

Trans Movement

Comprehensive Sex Ed

White Privilege

Rise in Suicide

Bullying

Pornography

Woke School Counselors

Mental Health

Gender Confusion

Therapist

Anxiety

Dumbing
Down

Furries

DEI

Social Workers

LGBTQI+
Clubs

Parental Rights

CRT

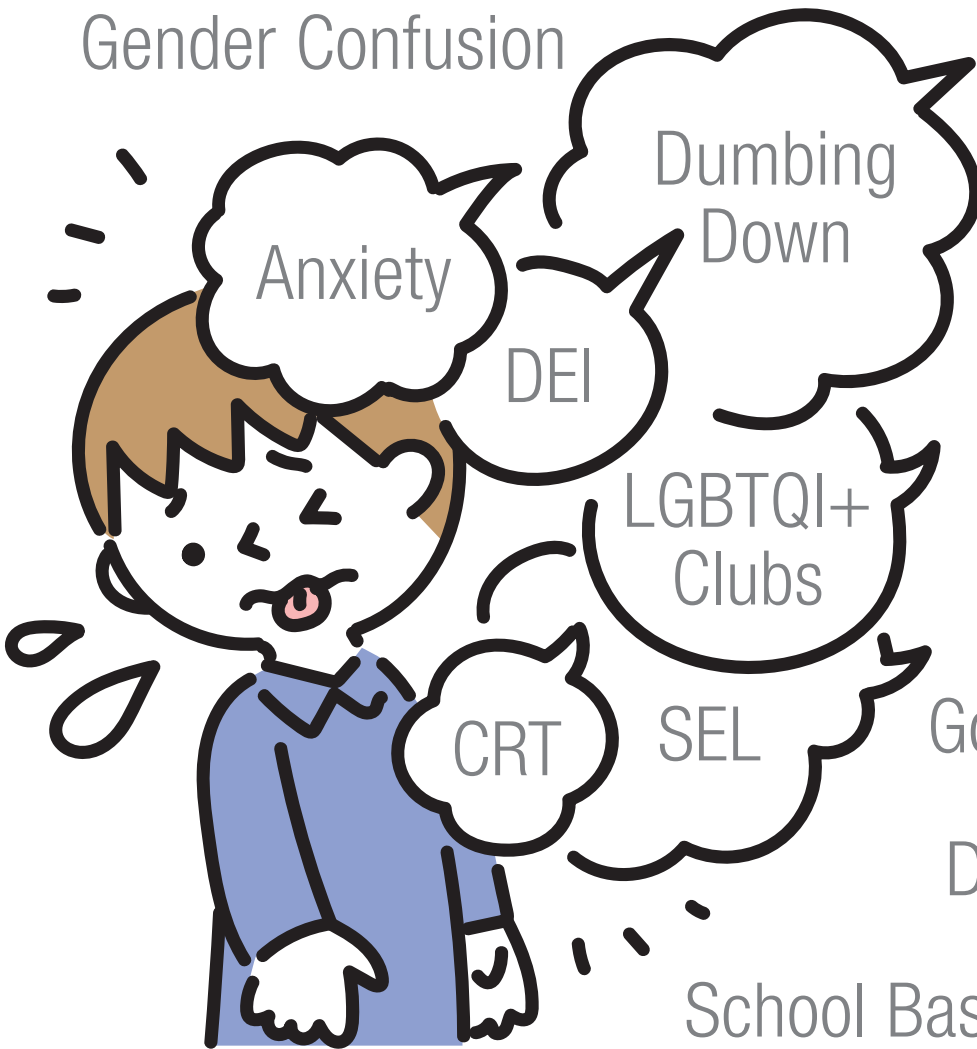

SEL

Victimhood

Government Control

Data Collection

School Based Health Clinics

INDOCTRINATION

Social Emotional Learning is designed to turn our children against God, Church, Family, Country, Morality, and more. SEL is teaching students to be activists. SEL also encourages children to find their perceived identities. This could be identifying as an animal or choosing a different sexual orientation, many times without the parents' knowledge. SEL is a lever for equity and social justice teaching, which includes Diversity, Equity, and Inclusion, Critical Race Theory, Climate Change, Activism, and Comprehensive Sex Education.

PARENTS' RIGHTS

There is an attack on the God-given authority of the parent to guide the education and health of their children.

DUMBING DOWN

Schools are teaching radical ideologies in place of academics. The federal government's data shows that over $\frac{2}{3}$ of 8th graders are not even proficient in any core subject. Scan the QR code for The Nation's Report Card statistics.

DATA MINING

Schools are compiling data on students and their families through online surveys on mental health, attitudes, psychological makeup, bio-metric data, academic performance, home life, and more. This data will follow your child for life. Every parent should ask where this data is going and who has access to it. Is the government forming a social credit score on your child?

GENDER DYSPHORIA & TRANSGENDERISM

Every day we see the effects of Comprehensive Sex Education in our schools. From pornographic books in K-12 libraries, children are being confused about what sex they are, because of the transgender movement being pushed. Parents are not always told if their child is using pronouns or using a different name at school. What right does the school have to hide information from parents and make decisions for our children?

RESTORATIVE JUSTICE

Restorative Justice is viewed as an alternative to the typical punish/suspend method of discipline that has been used historically. This new method of discipline puts teachers at a disadvantage for controlling their classroom. It also rewards bad behavior. Therefore, bullying is at an all-time high. Is your child being bullied at school and experiencing anxiety?

MENTAL HEALTH SCREENINGS & SCHOOL BASED HEALTH CLINICS

School districts are performing universal mental health screenings on all students and bringing health clinics into our schools. These clinics will take care of all your child's mental and physical needs. This will further erode your right to make health decisions for your child.
